RESPONSE TO NOTIFICATION OF NON-COMPLIANCE

Sir:

COMMENTS

In response to the Notification of Non-Compliance with 37 C.F.R. § 1.192(c), Appellants hereby submit in triplicate a corrected Appeal Brief. With respect to the indicated points of non-compliance, Applicants note that specific reference has been made to canceled claims as well as the claim under appeal. Also, Appellants have added references to the specification by page and line numbers in the Summary of the Invention.

Furthermore, the Examiner asserted that the Examiner's "objection" to the claims for introducing new matter is not appealable. Appellants' undersigned representative had a brief phone conference with regarding the objection to the claims as new matter. The Examiner indicated that the "objection" needed to be reformulated as a "rejection" in a Supplemental Office Action. Appellants agree that this would be consistent with the statutory scheme and the MPEP. Appellants will request reinstatement of the Appeal following the issuance of a new

Office Action. This issue is addressed unchanged as a Written Description rejection in the analysis in the Corrected Appeal Brief.

Respectfully submitted,
